--	---

- Summer intern for Phe Phim company, an entertainment company that creates content about films and movies on platforms including Youtube, Facebook, and others.
- Research, analyze, and create content for videos and social media posts in English and Vietnamese.

Eon International Corporation (Contractor) Interpreter (ODA Initiative - Vietnam)	Hanoi, Vietnam February 2023 - November 2025
--	---

- Facilitated clear communication between EON International Corporation and the Vietnamese mobile police force during an official equipment handover meeting.
- Provided accurate and timely translation services from English to Vietnamese, ensuring smooth coordination of the equipment supply process under the ODA initiative.
- Translated documents, including equipment manuals, to support effective adoption and usage of the supplied equipment.

PROJECTS

Personal Portfolio Website: portfolio-two-alpha-nea7hwg4k6.vercel.app

Suki - Events discovery (suki-app-two.vercel.app)

Full-stack · React, Tailwind, Supabase (Postgres/RLS, PostGIS), Vercel

- Local events directory with external ticketing, a single “Get tickets” CTA (no on-site payments).
- Location-aware browsing: city selector + “near me” filter; remembers preference; PostGIS distance queries.
- Bilingual UX (EN/VI) with instant toggle and on-the-fly machine translation cached in Supabase.
- RLS-secured backend: events, venues, profiles, image storage; SEO (JSON-LD, canonicals, GSC verified).

Substack Digest - AI Substack article summarizer (substack-digest.vercel.app)

Front-end + API integration · React, OpenAI API, Vercel

- Paste a Substack URL to generate a clean, concise AI summary of the article.
- Handles URL ingestion + readable text extraction; outputs a shareable summary page.

TaskApp - Minimal Daily/weekly/monthly planner (task-app-five.pi.vercel.app)

Front-end · React, Tailwind

- Distraction-free planner with quick add, inline edit, and keyboard shortcuts.
- Synced views: Day / Week / Month; persists data via localStorage.

SKILLS

- Frontend: React (Vite), HTML/CSS, Tailwind, responsive & accessible UI
- Backend & Data: Golang, Supabase (Postgres, PostgREST, RLS, Storage), SQL schema/indexing, PostGIS
- Analytics & Growth: PostHog (pageviews & custom events), UTM + attribution pipelines, email capture, SEO (metadata, JSON-LD, GSC)
- Cloud & DevOps: Vercel deploys, environment variables, logging/CLI, Git & GitHub workflows
- AI & Integrations: OpenAI API (summarization/features), Google Cloud Translate, GPS API
- Core Tech: JavaScript (ES6+), React; basic Python; browser DevTools
- Communication: Excellent written/presentation skills; research & data analysis; translation & documentation (EN↔VI); basic video/graphic design.

ADDITIONAL INFORMATION

- **Interests:** Football, Guitar, Chess, Tennis.
- **Language:** Native Vietnamese, C1 level English.
